Inside this leaflet you will find brief information about a range of services that can offer support over Christmas and New Year.

For bespoke information sent directly to you, please contact our information centre 0131 243 0106. This is a confidential service, offering information and guidance about keeping well in Edinburgh. You can also email us at information@health-in-mind.org.uk
This ‘Surviving Christmas and New Year’ is based on a leaflet produced by the FAST group in West Dumbarton and the Fife Adult Protection Committee
It can seem that everyone around us is having a great time at Christmas and New Year, but it can be a really hard time for many of us.

There is extra stress around this time of year. For example, worrying about money, seeing family, heating the house, or going out where there is a lot of drinking.

This guide brings together a range of support and services that are here to help.

Health in Mind is Edinburgh’s local mental health and wellbeing charity. We provide a range of services to help people live the way they want to live. Services include:

- Befriending
- Counselling - inc specialist support for survivors of childhood abuse
- Homelessness Prevention in SE Edinburgh
- Information Resource Service - help to find the support you need to keep well
- Support for older people - information services and groups for people with dementia and their carers
- Support for people from ethnic minority backgrounds
- Trauma support services

I try to keep in my normal routine as much as possible.

I try to remember it’s only a couple of days and things will be back to normal soon.

I go out for a walk when family life is getting too much for me.

I used to feel like I had to take part in Christmas and New Year. But now, they are just ordinary days for me and that’s much easier.

I get a new book out of the library because I know that there will be nothing on TV that I want to watch.

Keeping well

Here are some ways that people keep well at Christmas. These are just a few things that people have told us help them. Different things work for different people.
10 tips for getting through Christmas

1. Make sure you have enough medication to cover the time when the Doctor and Chemist are closed.
2. Work out a budget and stick to it.
3. Think about little things you can do each day to keep you well, for example, a nice warm bath or wrapping up and spending time outside.
4. Plan out meals so that you have enough food in the house to cover the days when the shops are closed.
5. Plan a routine and follow it each day.
6. Try to be honest with family and friends if things are feeling overwhelming.
7. Remember it’s OK to cancel plans if you don’t feel up to going out.
8. Talk to your support worker, or people who support you, about how you will cope with Christmas now.
9. Try not to compare yourself and your Christmas to those you see on TV or on social media. You are not alone in finding things hard.
10. If things get too much, talk to someone
